

## Sunday Service: Transformation

25<sup>th</sup> January 2015

### The Word:

- When a person is no longer transforming in their lives, they enter into stagnation
- It is important to know our true condition, or position, as a Christian. What exists in our hearts is revealed in 2 areas: our words and our actions
- Wisdom and revelation is what we need in our lives, when the time is right, God brings revelation. It's the mechanism God uses to shift His church
- Revelation is the process that God uses to bring transformation in a person or a church
- The purpose of every revelation that comes to us, is to shift, advance and transform us
- Every revelation that we reject in the things of God, will result in our stagnation
- Ultimately, the work of transformation is to move people to a place of maturity
- We must understand the importance of the mind-when the mind is not renewed, the negative cycles repeat in our lives
- We must learn to reject the words of the enemy, words of fear, rejection etc. Because the words we fail to reject, become the strongholds in our lives
- Paul said, "I die daily"-this reveals that there is a **process** of transformation, it's not instantaneous
- Thoughts begin as a suggestion from Satan: either **directly** to us(a thought, words in our minds), or **indirectly** through another person(offence etc)
- If not rejected, these become strongholds in our minds, habitual patterns of thoughts: the lie of Satan is waiting for you to agree or disagree with it
- This year God is going to change something in your life, and He will require us to change something
  
- **Key Scriptures:**
- Luke 6v45: "Out of the overflow of the heart..."
